

National Shelter Products has quietly revolutionized custom-printed advertising with DRYline building wraps. Our unique printing method allows very short production runs (as few as eight rolls!), full-color printing, and alternating logos and messages on the largest print area available. And with the power of WRAPLAB™ Custom Print Designer, creating custom designs to be printed on your building products is easier than ever. Visit dryline.customprintwrap.com for more information.

GET STARTED CUSTOM PRINTING WITH **WRAPLAB™**
FOR BUILDING WRAP

Wraplab is a tool for creating custom designs that can be printed on your building products. Choose from a gallery of professionally designed logo and messaging templates, or upload your own custom, full-color messages. With WrapLab, you can design and include up to six unique, alternating messages on a single roll. Visit dryline.customprintwrap.com to get started today.

Standard DRYline print

BROADCAST printing in Lane 2 with alternating logo and message

BROADCAST printing in all lanes; alternating logo and phone number in Lane 2

The number of BROADCAST custom-printed rolls per pallet depends upon the length of the roll and the material. We offer the industry's lowest minimums for custom-printed building wraps.

Minimum Number of Custom-printed Rolls

	100'	150'	195'
DRYline W	15	14	13
DRYline HP & LP	9	8	N/A
DRYlineRainDrain	12 (200' rolls)
