**To:** Mr. Tyler Kruckenberg  
Business Manager  
National Shelter Products

**Re:** DRYline® NFPA 285 Assemblies

Dear Mr. Kruckenberg,

This letter and accompanying documents are in response to your request for reports and information that confirm DRYline® Water-resistive barriers are approved in accordance with the 2015 Chapter 14 section 1403.5 addressing Vertical and Lateral Flame propagation on exterior walls on buildings of Type I, II, III or IV construction that are greater than 40 feet in height above grade plane.

Please find attached, the Priest Associates Engineered Analysis, providing approval for use of the following DRYline Water-resistive Barriers in the defined NFPA 285 Assemblies. As you will see, the Priest Associates Engineering Analysis references the Water-resistive Barriers in codified (Jumpstart) format. The following table cross-references the codified names to those of National Shelter Products' Water-resistive Barriers.

<b>Jumpstart Consultants, Inc. Product Name</b>	<b>National Shelter Products, Inc. Product Name</b>
HWMPC-105A	DRYline® LP
HWW-65A	DRYline® W
HWW-HP-80A	DRYline® HP
HWMP-90A	DRYline® CP
HWD2-72A	DRYline® Raindrain

Let me know if you have any questions or need additional information.

Sincerely,

A handwritten signature in blue ink that reads "Paul Lautrup".

Paul Lautrup  
Codes and Regulatory  
Jumpstart Consultants, Inc.
